

The new FBZ-E 2015

2014-08-28 Pott

Reflect on what's past, shape what's lying ahead and look forward to challenges - this is our passion for your perfect seminar.

Still under construction our new training centre will open its doors on January 1st 2015 at Konrad-Zuse-Str. 4-6 in Leer.

On two floors open seminar areas and areas for practical training are being built. Equipment provided will be to highest standards, even more specialised and more technical than previous, to meet our motto "next level learning".

We are looking forward to welcome you at our new training centre as of the 1st of January 2015.
