

JSU - Annual Safety Briefing Seminar-No. 30.90.130 1T - EN

Based on the industrial safety regulations and stipulations by the employer's insurance association, this safety briefing focuses on the operational necessity of annual training in the electrical sector. Topics are chosen in view of the operating of low voltage installations on the basis of safety rules. This safety briefing includes workshops which are set up to fit the company's operational situation. Additional topics can be covered by specialist lectures and further workshops. Regular attendance ensures the promotion and development of the company's in-house safety concept for the electrical scope of application.

Participant: Electrically instructed person – EUP
 Skilled electrician for defined tasks – EFFT
 Skilled electrician – EFK and vEFK

Theory:

- ✔ Development of accident figures and analysis of accident progress
- ✔ Hazards in the electrical scope of application and principles of protection
- ✔ Addition to first aid for accidents in the electrical scope of application
- ✔ New standards and developments in protective technology
- ✔ Hazard assessment, measures and obligation for documentation
- ✔ Assessment of work conditions and determining what PPE is required

Actions:

- ✔ Analysing past operational hazards and accidents
- ✔ Allocating accidents depending on which safety rule was disregarded
- ✔ Implications of new regulations for operational processes
- ✔ Records of technical decisions

Workshop:

- ✔ Standard of material and safety aspects for various work principles
- ✔ Editing new regulations with operational derivation
- ✔ Selecting, using and checking of personal protection equipment
- ✔ Measurement- and test sequences for functional and safety related protocols

Start: according to retraining by the FBZ-E or by arrangement
 Duration: 8 lessons
 Conduction: 1 day from 9:00 to 16:00

Price:	1 participant	1.150,- €	per participant	1.150,- €
	2 participant	2.100,- €	per participant	1.050,- €
	3 participant	2.850,- €	per participant	950,- €
	4 participant	3.400,- €	per participant	850,- €
	5 participant	3.750,- €	per participant	750,- €
	6 participant	3.900,- €	per participant	650,- €

As of 6 participants the fee for any further participant is 650,- €. Rate discounts (lower rates for higher number of participants) are referred to per company or per quote. All offers are Net of VAT.

An appointment on location to identify company-specific hazards in the electrical scope of application will be arranged separately.
